Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2011-0556; Airspace Docket No. 11-ASO-21]

Amendment of Class E Airspace; Jacksonville, NC

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule, technical amendment.

SUMMARY: This action amends Class E airspace at Albert J. Ellis Airport, Jacksonville, NC, by updating the geographic coordinates of the airport to aid in the navigation of our National Airspace System. The airport dimensions and operating procedures remain the same.

DATES: Effective date: 0901 UTC. April 5, 2012. The Director of the Federal Register approves this incorporation by reference action under title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

SUPPLEMENTARY INFORMATION:

History

The FAA received a request from the National Aeronautical Navigation Services to update the geographic coordinates of Albert J. Ellis Airport, Jacksonville, NC. This action makes the adjustment.

The Rule

This action amends Title 14 Code of Federal Regulations (14 CFR) part 71 by amending Class E surface airspace, and Class E airspace extending upward from 700 feet above the surface, at Albert J. Ellis Airport, Jacksonville, NC. The geographic coordinates of the airport are adjusted to be in concert with the FAA aeronautical database. Accordingly, since this is an administrative change, and does not involve a change in the dimensions or operating requirements of that airspace, notice and public procedures under 5 U.S.C. 553 (b) are unnecessary.

The Class E airspace designations are published in Paragraphs 6002 and 6005, respectively of FAA order 7400.9V, dated August 9, 2011, and effective September 15, 2011, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them, operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore, (1) is not a “significant

regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends controlled airspace at Jacksonville, NC.
